Subject: Site 19 Draft Closeout Report for Site 19

Agnes, et al. - I have reviewed the subject document and have only the following typographical comments to submit:

Section 1.2, First sentence - please change sentence to read ... "that no further action (NFA) is necessary to ensure protection of human health and the environment."

Page 2-5, First full paragraph, last sentence - I reread the last sentence starting with "The SJCA partnering team..." but could not determine exactly what it's trying to say and thus what the proper wording should be. I think that a couple of key words may be missing, it appears to be an incomplete sentence. Please revise the wording accordingly, just explain to me what I'm missing.

Page 2-5, Last paragraph, second sentence - anthracene is misspelled, please correct.

Thank you for the opportunity to comment.
